Good people making good coffee.

It takes a lot of people to make a good cup of coffee.
The growers. The buyers. The roasters. The brewers.

Brazilian Coffee is committed to building long lasting relationships
with all of these people. That moment when someone enjoys
our finished product, all of these combined efforts &
passions are realized.

We have built our business and our product with these
relationships as the foundation to quality and success.
It is these relationships that make a great cup of coffee.

*Our signature coffees have been
enjoyed for over 40 years.*

Brazilian Coffee: Our Roast Story

Our Roasting Facility

Creating a perfect beverage is not only our passion, but our mission with each and every bean we roast. We select only the best of beans available and with care develop our roasting strategies for the different taste profiles most wanted by our clients. Our roast master carefully selects our beans with the understanding that our coffee must create the taste experience that satisfies with every cup. Attention to every step in the process, and the desire to produce that perfect cup of coffee insures all of our clients the best tasting beverages.

Brazilian Canadian Coffee Roasters was established in 1975 and is a family owned and operated company. For over 40 years we have been dedicated to manufacturing the highest quality gourmet coffees. Our 50,000 square foot modern manufacturing plant located in Toronto allows us to control the entire process in roasting great coffee.

Always Fresh

Our whole bean products are packaged immediately after the roasting process and include a one-way valve that allows carbon dioxide (CO₂) to escape, while preventing oxygen from entering the bag. This preserves the beans and keeps them as fresh as they were the day they were roasted. Our portion packed coffees are ground and packaged using state-of-the-art equipment and techniques. Each pouch is individually gas flushed using nitrogen to ensure that your coffee stays fresh.

Fair Trade

Our Fair Trade purchasing program ensures that the small scale farmer who grow and process these beans receive a fair price for their efforts. This enables farmers to care for themselves, their families, and their communities while reinvesting in the care and quality of their coffee.

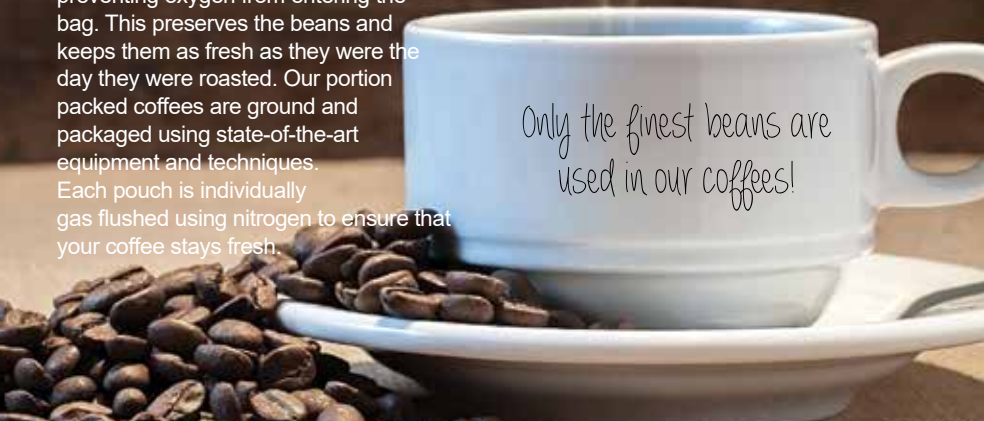

Organic

Our organic coffee's are cultivated with natural gardening techniques like composting, and terracing and grown entirely without pesticides, herbicides or chemical fertilizers.

Quality Management

Our Quality Assurance department is one of the finest and most advanced in Canada and is staffed with highly skilled professionals. Rigorous tests ensure the quality is always high. Oxygen analysis, grind analysis and our unique AGTRON colour analysis specifications are just a few of the tests that we perform. Our tasting experts cup every blend and batch in our laboratory to ensure that our customers will always be fully satisfied.

Only the finest beans are used in our coffees!

Our Signature Blends - Light Roast

☉ ☉

Traditional Bourbon trees in Brazil, superior beans, complex flavour that is heavy bodied yielding a soft fine cup.

☉ ☉

This blend of African, Central and South American beans yields a strong, full-bodied coffee with overpowering taste and aroma.

☉ ☉

Full-bodied character in the cup, without the bitter harsh notes associated with most local/popular blends. A fine cup of coffee for any occasion.

☉ ☉

A full-bodied rich flavour blended specifically to satisfy the taste buds of those individuals who frequent donut shops.

☉ ☉

A fully-developed, heavy bodied flavour with a hint of bitterness that connoisseurs crave. It has a high acidity to punctuate a mellow nutty taste with rich aroma.

☉ ☉

Blend of South and Central American Arabica beans exhibiting a mild balanced cup with pleasant acidity and body. A complex array of subtle fruity to nutty flavours.

☉ ☉

Hand picked, selected and prepared according to European standards (no silver skin). Characterized as mildly fruity, highly acidic, and medium-bodied with a wine-like aroma.

☉ ☉

This famous coffee is hand selected one bean at a time from steep mountain area Bourbon trees. These large bold beans can be characterized as fruity, high acidity, medium body with a wine like aroma.

CAFFÈ **TRUCILLO**

Our history started more than 60 years ago, with the great passion of my father, Cesare Trucillo. I spent my childhood breathing the intense and heady aroma of coffee. Those smiling people, that scent, those busy hands all around me: then as now, they inspired a passion for espresso coffee which has gradually become a great family tradition. And so today, we still work with the same enthusiasm as once and our goal is not only to sell high quality coffee, but to spread the Italian Espresso Culture. - *Matteo Trucillo*

Royal Cup

New!

Like most great stories, ours has a humble beginning. In 1896, Henry T. Batterton made rounds in Birmingham, Alabama, selling coffee from his horse-drawn wagon. His company, Batterton Coffee Company, served coffee so fresh and flavorful that it was deemed fit for royalty. Because of its high-quality taste, it became known around town as a “royal” cup of coffee. Batterton Coffee Company experienced decades of success and growth, and established itself as a legitimate, thriving business in a small southern city.

The coffee aisle is crowded. There are so many dark roasts, evening blends and morning joes out there as there are coffee drinkers. But My Little Brew is different - we didn't start in a pot, because we don't belong in one.

Our carefully selected beans and meticulous roasting process are meant to ensure the perfect cup, and nothing more. We're all for sharing, but this one's just for you. Wake up and smell the difference.

Same trusted quality and rich flavour you would expect from Brazilian Coffee with the convenience of single serve brewing.

All single cup solutions we carry are 2.0 compatible.

Desserts

Family-owned and operated, Lawler Foods' business has been built on the solid foundation of "home-made" taste and quality. We follow recipes - not formulas employing home-style methods along with food technology. We use the finest natural ingredients - not artificial flavors and chemical additives. The results: creamy cheesecakes, moist layer cakes, and pies as delicious as those from your grandmother's kitchen.

New Upgraded Series Garbage Bags!

We are happy to announce our new series of Garbage Guts garbage bags by Polyethics

GG Series

Polyethics is the first manufacturer to use 100% recycled material to create 100% degradable products which are 100% recyclable, but that doesn't have to mean a lesser quality bag. Try and see the Polyethic difference
